What is ARSCA ?

*“ Anti-Rug Smart Chain (ARSCA) is designed for multi-purposes DApp's such as ARSCA Directory, ARSCA Tools & ARSCA Finance. “*

*“ ARSCA is a smart solution for one-stop fully DApp's on BSC products. “*

# Background

At the beginning, ARSCA was a YouTube channel that created for some kind of honest review on new BSC Projects, and intended to inform the viewers about rug-analysis for the projects and evaluate it.

And then we came with an idea of ARSCA as a BSC Project by doing a greater contribution to the whole BSC community through ARSCA Directory, ARSCA Tools, and ARSCA Finance, which will be fully explained on the Projects section.

**A.R.S.C.A**

# A.R.S.C.A AGENDA

**01**

## **ARSCA Finance**

BEP20 Token Generator, Launchpad, Token/LP Locker, DEX & Yield Farming, 3D-NFT Marketplace

**02**

## **ARSCA Tools**

Live Charting & Token Data, Trading History, LP Data, Volume, Whale's Detector

**03**

## **ARSCA Directory**

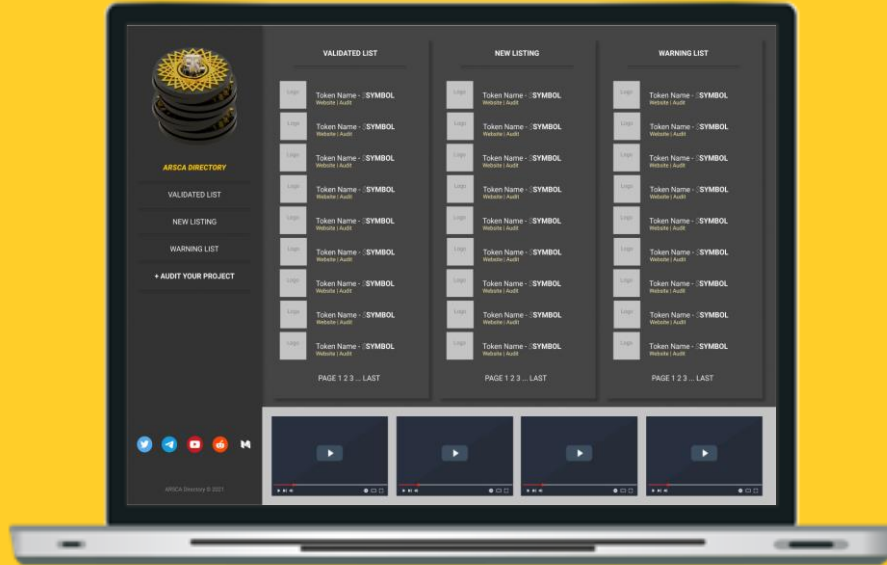

ARSCA BSC Audit Services, BSC Start-Up Listing & Directory, Anti-Rug Analysis

**04**

## **\$ARSCA Native Token**

\$ARSCA native token itself come with Autonomous DeFi features such as;  
Auto-Yield Generation for ARSCA hodlers, Auto-Liquidity Protocol & Auto-Deflationary Mechanism.

# ARSCA Directory

1

## ARSCA BSC Audit Services

Anti-Rug Audit for BSC tokens only, especially to all Start-Up projects on BSC ecosystem. They'll need ARSCA Audit for consumer confidence.

2

## BSC Start-Up Listing & Directory

Kind of Low Cap / Start-Up project listing & directory on the BSC ecosystem. It'll come with the project's profile & ARSCA Audit result.

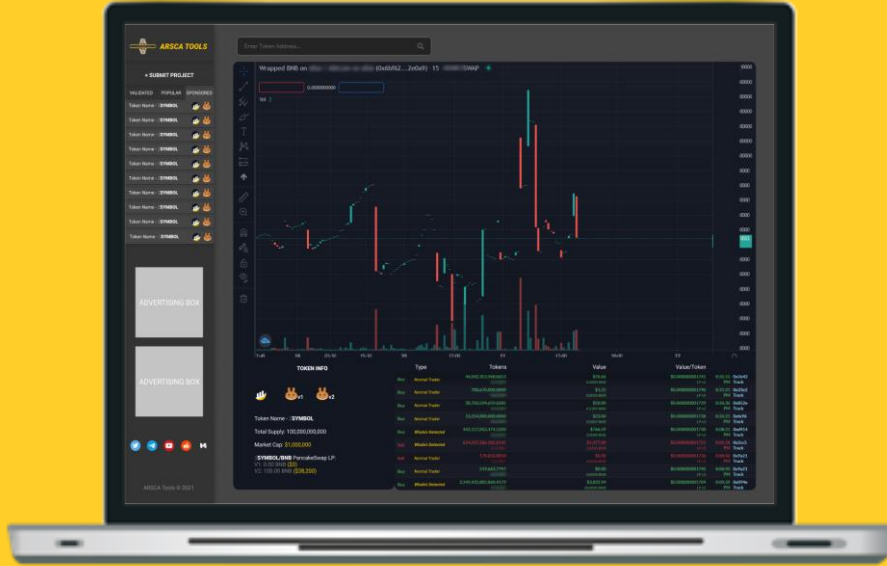

3

## Anti-Rug Analysis

ARSCA YouTube channel will give more insight about the potential security of all the project's that have been listed on ARSCA Directory. It'll be linked with the project's profile.

*ARSCA Directory is one of the 3 products on ARSCA Ecosystem.  
It brings more exposure to all BSC Start-Up that have been listed on it's directory.*

# ARSCA Tools

1

## Live Charting & Token Data

Live technical chart & token data such as BSCscan address, DEX swap address, etc.

2

## Trading History

Trading history data will be created whenever a token being swap on it's DEX.

3

## LP Data

Token liquidity pool's data will be showed within the page.

4

## Volume

Volume of transaction data's included.

5

## Whale's Detector

A special feature that will track the token trader's addresses and specify their type of investing.

*ARSCA Tools is one of the 3 products on ARSCA Ecosystem.  
It brings more insight about the technical data on each specify token's.*

# ARSCA Finance

1

## **BEP20 Token Generator**

An app's that will help it's user to create a BEP20 token without any coding skill's.

2

## **ARSCA Launchpad**

A specified Launchpad for any BSC start-up.

3

## **Token/LP Locker**

The app's created to be linked with ARSCA Launchpad & Dex, so it could be more efficient for the client. But it can be used as a standalone LP Locker service.

4

## **DEx & Yield Farming**

It's basically an AMM DEx system with Yield Farming and other DeFi's features.

5

## **3D-NFT Marketplace**

BSC NFT Marketplace with specified category/niche, which is 3D segmentation only.

*ARSCA Finance is one of the 3 products on ARSCA Ecosystem.  
This is what we called a one-stop DeFi ecosystem inside ARSCA ecosystem.*

# A.R.S.C.A Revenue System

ARSCA Source of Income and how it works for \$ARSCA

## ARSCA Directory Monetizing System

An audit program that the project's owner should hold some amounts of \$ARSCA native token in order to be audited by ARSCA Audit and being listed on ARSCA Directory.

## ARSCA Tools Monetizing System

Project's owner could advertise their token on ARSCA Tools page with a condition that they should've hold some amounts of \$ARSCA native token, or the other option is they can just paying ARSCA for a banner advertising.

## ARSCA Finance Monetizing System

- BEP20 token generator with a small fee to ARSCA.
- ARSCA get a fee for any Launchpad project.
- ARSCA get a fee for any project that uses the LP locker service.
- DEX & Yield Farming fees.
- 3D-NFT Marketplace fee.
- Buyback (9% of ARSCA Finance revenue).

And of course we'll have a very competitive fee's that will makes our clients feel's better to use ARSCA services.

## \$ARSCA Native Token Fee

7% of total fees;  
3% go to LP address,  
3% go to ARSCA hodlers,  
1% burns

Sustainable

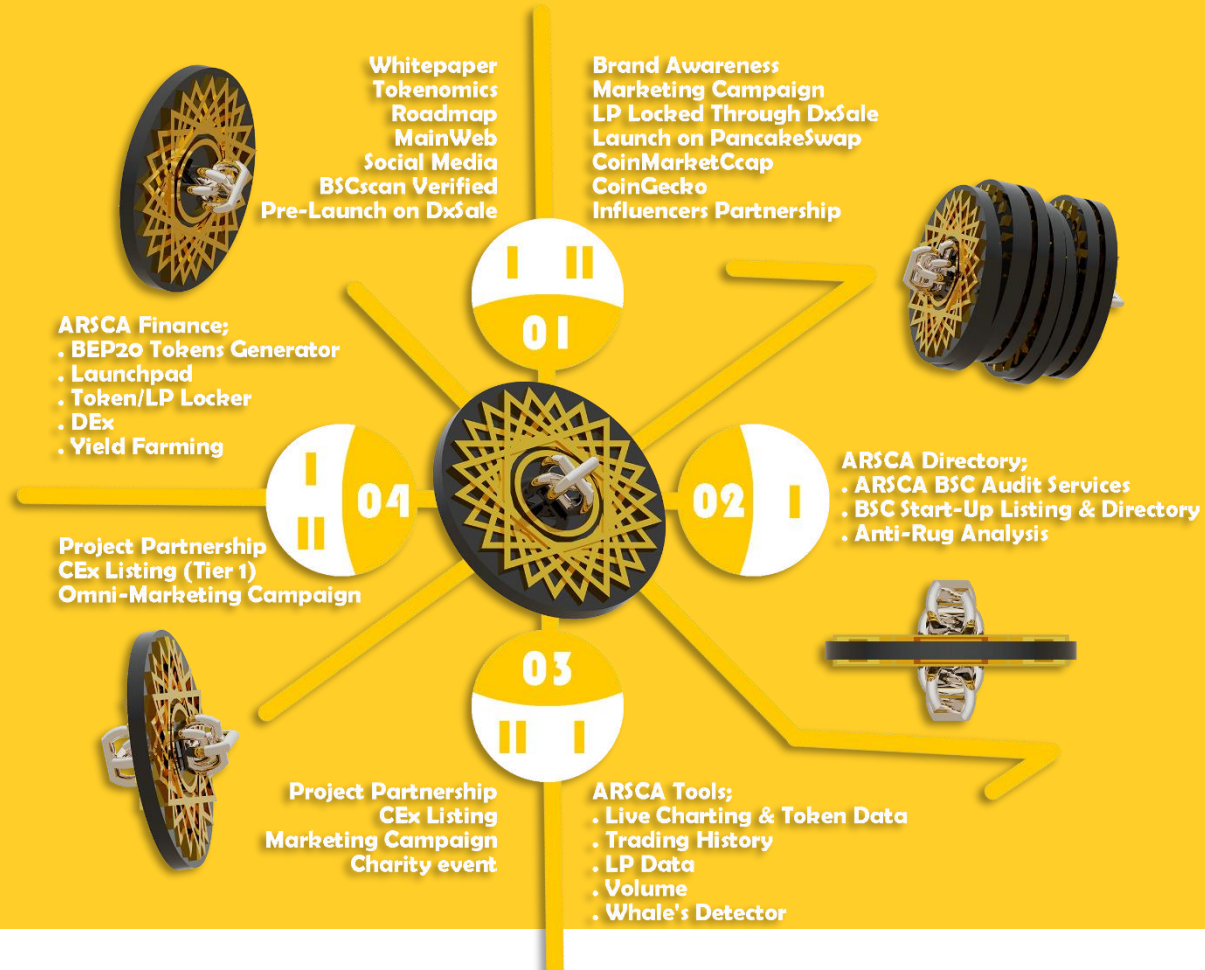

Solid

Clear

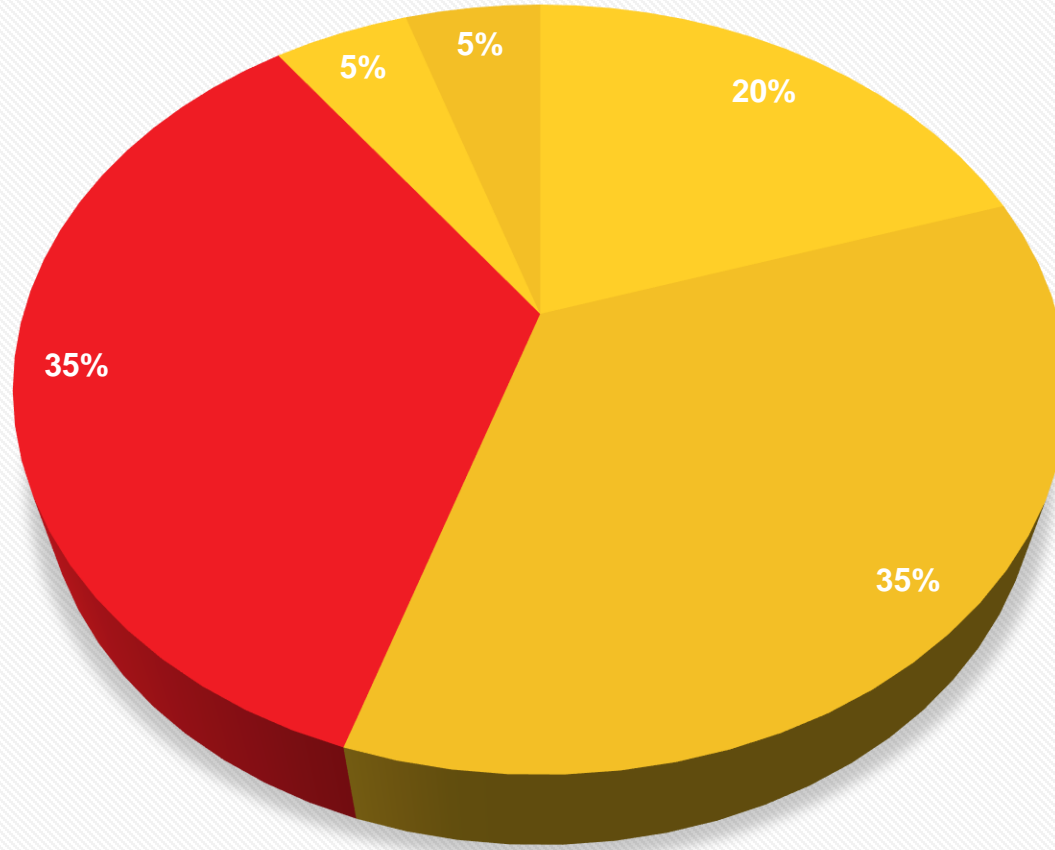

*"It's a WIN-WIN solution both for the ARSCA hodlers & ARSCA ecosystem itself"*  
**NOBODY'S RUG, EVERYONE HAPPY!**

# ARSCA Roadmap

100 Billion of Supply

TOKENOMICS THAT WORKS !

■ Pre-Sale 20% ■ DEx Launch & Preserved 35% ■ CEx Launch & Preserved 35% ■ Events & Partnerships 5% ■ Dev 5%
